Appendix:

Clarifications in relation to the Order of merit.

The item that must be confirmed by each Province and can't be changed for the duration of the Competition as per Rule 8 above is the order of Merit.

However, it doesn't mean you can't vary who plays doubles during the competition. Any of the players can play doubles. However, at all times the players who line out for singles must do so in order of merit. So, for instance if the No. 1 Player in the order of merit plays in the doubles with say the No. 3 Player in the order of merit, then the No. 2 Player in the order of merit must play No. 1 singles and the No. 4 Player in the order of merit must play the No. 2 Singles. There are many other permutations possible. However due to the strict adherence to the order of merit for the duration of the Competition the No 1 Player in the order of merit can never play in the No. 2 Singles and the No.4 Player in the Order of merit can never play in the No. 1 singles.

Rule 11 above covers the procedure for confirming the actual line-out for each tie within the Competition.

COVID 19:

All protocols as laid down by Sport Ireland,, Sport Northern Ireland, Tennis Ireland and the current laws of the land shall be followed at the events.
